

SHOOTING AUSTRALIA WHOLE-OF-SPORT INTEGRITY IN SPORT COMMITMENT STATEMENT

This Whole-of-Sport Integrity in Sport Framework represents a commitment by Shooting Australia and its Member Organisations, to work together to proactively implement best practice policy in the areas of:

- Pure Performance;
- Match Fixing; and;
- Member and Child Protection

This Framework provides the platform for collaboration, and will be underpinned by legislation, regulation, codes of conduct and policy.

It is recognised that Shooting Australia and its Member Organisations are best placed to lead best practice only if there is co-operation and goodwill between governments, sports organisations and the shooting community.

We, the Presidents of Shooting Australia and its Member Organisations, acknowledge the support of our partners in sport. Together we will implement this Framework which will protect members, and, address issues should they arise, and in doing so we will preserve the integrity of one of Australia's greatest assets – our national sporting heritage.
